Leniency: Policy and Procedure

Edited by **Samantha Mobley** and **Ross Denton**

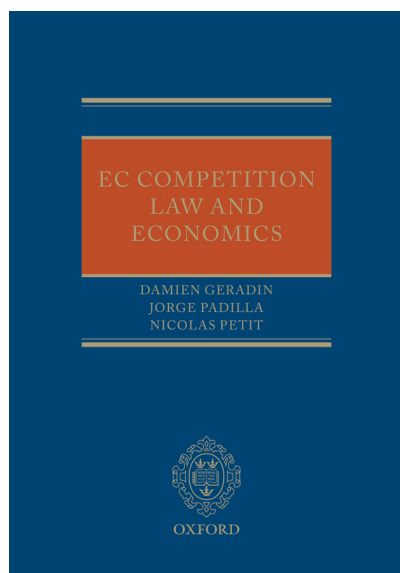

The Global Cartels Handbook provides a comparative analysis of immunity and leniency programmes for legal practitioners and corporate counsel. It consists of a comparative introduction which identifies some of the key features of the main jurisdictions and provides some of the strategic pointers to the most appropriate forums in which to seek leniency. A quick reference guide gives a tabular country-by-country overview of the leniency programmes in place around the world. This is followed by a detailed point-by-point description of each leniency programme, with reference to all key case law throughout, under a set of headings which are templated across each country chapter.
